From: Director, Office of Fire and Aviation

Subject: Internet and Intranet

In February 1999, BLM/NIFC External Affairs was given the responsibility for establishing and maintaining the BLM National Office of Fire and Aviation's Internet and Intranet site, and the NIFC Internet site.

The External Affairs staff will be contacting each program to discuss current or pending web sites. I want to ensure that all sites have consistent messages and meet our standards for the public expression of our mission.

The External Affairs staff will assist you with site development. With the previous information as background, please refer to the attached Website Development Process. Technical guidelines for the Internet and Intranet will also be distributed to each group leader. If you have questions please call Jack Sept at 387-5458.
